

## We are TIMETRAVEL.BERLIN: Founders & core team

Currently, the VR studio founded in Berlin in 2018 is working on the VR simulation **20s.BERLIN**, a virtual time travel to the European metropolis of the Roaring Twenties with an international team.

**Peter Langer** (Founder & CEO): Inspired by his grandfather's narrations about Berlin, Peter decided in 2016 to realize his vision of traveling virtually in time. Together with Dr. Benedikt Goebel, he founded TIMETRAVEL.BERLIN in 2018. Their first project: 20s.BERLIN. Born in Munich, Peter has lived and worked in Berlin since 1989. His *studiolanger* works successfully with renowned agencies as well as international clients and has many years of expertise in corporate architecture, exhibition design and 3D visualization.

**Dr. Benedikt Goebel (Founder & CKO)**: Since being a student Benedikt wants to merge history with computer science; thanks to VR and AI this dream is within reach now! In order to enthuse a broad public for the genius loci of downtown Berlin the owner of *Büro für Stadtforschung* teamed up with Peter Langer in 2018 and founded TIMETRAVEL.BERLIN. The fact that 20s.BERLIN will be able to claim to depict the historical Berlin correctly is above all due to Benedikt's profound knowledge.

**Lukas Brüß (Producer)**: It's been five years now, that Lukas has been living double – about half of his life he's spent in virtual reality. What fascinates him about 20s.BERLIN is that the project combines his three crushes: technology, history and storytelling. Before he joined the TTB team, Lukas was involved in several VR start-ups as a creative head where he gained a wealth of practical production experience.

**Alexander Darda (Research)**: Alexander does private research on the history of Berlin and therefore knows not only today's Berlin like the back of his hand, but also that of the 1920s. In addition to around 100,000 historical photos, he also collected countless other contemporary documents. His detailed knowledge of the architecture and everyday life of the 1920s contributes significantly to the authentic design of 20s.BERLIN.

**Rebecca Gerth (Press & PR Consultant)**: For almost 20 years, Rebecca (aka *büro für gelungene kommunikation*) has been advising and supporting her clients and customers in marketing, PR, press and public relations, copywriting and conception. She has an excellent network and currently supports projects in the fields of film and games. Since early 2020, she is a partner of TTB.
